## IPS® Corporation Acquires Roof Top Blox®

**Collierville, Tenn.**, May 12, 2016 – IPS Corporation is pleased to announce the acquisition of Roof Top Blox. Roof Top Blox is a non-metallic pipe support system designed with contractor input to address the wide variety of piping support applications on nearly all commercial roof types.

Roof Top Blox will be integrated into the IPS Roofing Products™ offering, continuing the division's expectation for quality and innovation in all products. Roof Top Blox will be inventoried in IPS' two US master distribution centers, as well as in Canada and will be available through the IPS Roofing Products sales organization to new and existing customers.

"We are excited to offer Roof Top Blox, the most innovative system of pipe supports for roofing applications on the market, to roofing distributors and their contractor customers" said Gary Rosenfield, IPS Roofing Products™ vice president and general manager. "Roof Top Blox has already established a strong reputation for reliability and service, and that makes it a great fit with the IPS Roofing Products™ line."

Please visit [www.rooftopblox.com](http://www.rooftopblox.com) or [IPSRoofingproducts.com](http://IPSRoofingproducts.com) for complete product support.

Roof Top Blox are designed specifically as roof supports to be used on commercial roof piping support and platform support applications. This revolutionary roof top support block system works with height extension rods, pipe support brackets, pipe roller brackets, strut support brackets, and more and is versatile enough for every roof plumbing support, roof piping support, and roof platform support.

IPS Roofing Products™, a division of IPS Corporation, is an industry leader in residential and commercial roofing products. Beginning with vent pipe flashings, IPS Roofing Products has sustained a superior reputation among roofing distributors and contractors for high quality product, committed service and industry expertise. All products are tested to exceed strict code requirements and to assure quality, durability, and safety.

Established in 1954 and headquartered in Compton, CA, IPS Corporation is a trusted leader in adhesives, solvent cements, and numerous components and supplies for the plumbing, roofing, construction and plastic fabrication industries. IPS' core brands include WELD-ON®, WATER-TITE®, TEST-TITE®, GUY GRAY™, TRUEBRO®, STUDOR®, and SCIGRIP®, and its quality products are manufactured with proven formulation and design using state-of-the-art equipment and manufacturing techniques. IPS Corp. has operations throughout the United States, Europe, and Asia, along with a worldwide network of sales representatives and distributors.
